

## NOTICES OF PROPOSED RULEMAKING

Unless exempted by A.R.S. § 41-1005, each agency shall begin the rulemaking process by first submitting to the Secretary of State's Office a Notice of Rulemaking Docket Opening followed by a Notice of Proposed Rulemaking that contains the preamble and the full text of the rules. The Secretary of State's Office publishes each Notice in the next available issue of the *Register* according to the schedule of deadlines for *Register* publication. Under the Administrative Procedure Act (A.R.S. § 41-1001 et seq.), an agency must allow at least 30 days to elapse after the publication of the Notice of Proposed Rulemaking in the *Register* before beginning any proceedings for making, amending, or repealing any rule. (A.R.S. §§ 41-1013 and 41-1022)

- 5. An explanation of the rule, including the agency's reasons for initiating the rulemaking:**  
The Board is increasing the fee that a licensee or certificate holder pays to renew the license or certificate. The increase in fees is necessitated by a fund sweep that the legislature put into the state's FY2009 budget. The Board had \$460,000 in its fund at the end of FY2008. The Board anticipates collecting \$789,305 in FY2009. Before any expenditure, the Board would have \$1,249,305 in FY2009. The legislature swept \$609,500 from the Board's fund as part of the state's FY2009 budget and appropriated \$450,000 for the Board's FY2009 operations for a total of \$1,059,500. This leaves the Board with \$189,805 in its fund at the start of FY2010, which is less than the \$450,000 required to operate the Board. Because renewals occur only in even-numbered years, the Board will not collect enough in FY2010 to meet its operating expenses. It will begin FY2011 with a deficit of more than \$100,000. The Board anticipates the fee increase will generate approximately \$110,000 every two years. With the fee increase, it is possible that the Board will again have funds with which to operate in FY2013.
- 6. A reference to any study relevant to the rules that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rules, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**  
None
- 7. A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:**  
Not applicable

Notices of Proposed Rulemaking

**8. The preliminary summary of the economic, small business, and consumer impact:**

This rulemaking increases the fee that a licensee or certificate holder pays to renew the license or certificate. The increased fee is a cost of doing business for the licensee or certificate holder that may be passed to consumers of veterinary services. Because the Board contributes 10 percent of the fees collected to the state's general fund, the rulemaking will increase state revenue.

The increase in fees is necessitated by a fund sweep that the legislature put into the state's FY2009 budget. The Board had \$460,000 in its fund at the end of FY2008. The Board anticipates collecting \$789,305 in FY2009. Before any expenditure, the Board would have \$1,249,305 in FY2009. The legislature swept \$609,500 from the Board's fund as part of the state's FY2009 budget and appropriated \$450,000 for the Board's FY2009 operations for a total of \$1,059,500. This leaves the Board with \$189,805 in its fund at the start of FY2010, which is less than the \$450,000 required to operate the Board. Because renewals occur only in even-numbered years, the Board will not collect enough in FY2010 to meet its operating expenses. It will begin FY2011 with a deficit of more than \$100,000.

The Board anticipates that the fee increase in this rulemaking will generate approximately \$110,000 every two years. The increase, which puts renewal fees at the statutory maximum, will help but still leaves the Board with a deficit until approximately FY2013.

In addition to definitions contained in A.R.S. § 36-2901, the words and phrases in this Chapter have the following meanings unless the context explicitly requires another meaning:

“Quality management” means a process used by professional health personnel through a formal program involving multiple organizational components and committees to:

Assess the degree to which services provided conform to desired medical standards and practices; and

Improve or maintain quality service and care.

“Quality Improvement” means a process designed to achieve, through ongoing measurements and intervention, significant improvement, sustained over time, in the areas of clinical care and non-clinical care that are expected to have a favorable effect on health outcomes and member satisfaction. Quality Improvement includes focusing organizational efforts on improving performance and utilizing data to develop intervention strategies to improve performance and outcomes.

Notices of Proposed Rulemaking

Utilization management/review applies to a Contractor’s process to evaluate and approve or deny the medical necessity, appropriateness, efficacy and efficiency of health care services, procedures or settings. Utilization review includes processes for prior authorization, concurrent review, retrospective review and case management.
